

Elect- Sharon Brown for VICE PRESIDENT AND Executive Member

WE are in the people service industry. Violence in the classroom is on the rise. Occasional Teachers and Long-Term Occasional Teachers have a great deal of responsibility. This **responsibility** is crucial to the students, the **communities we serve** and to our **health and well being** as **Occasional Teachers**. To fulfill these responsibilities, **we must be respected and treated** fairly.

My experience has taught me that we must pay attention to **the policies** that govern our work. The somewhat **transient nature** of what we do has to be considered by the decision makers. **We need to be seen and heard**. As a union we must be strong and not divisive. I know our members have ideas to share and **I will be a conduit for those ideas**. I have **the passion, enthusiasm, commitment, motivation, and skill** to help **mobilize our interests** and positions. A LOCAL united is a LOCAL undivided. **Working for all OT's**
