**ETFO

OCT, B.A., B.Ed., Mathematics Specialist

Theo is a Teacher and active ETFO member who advocates for All Occasional Teachers

Drawing on 10+ years as a Contract Teacher with TDSB, followed by 5+ years as an Occasional Teacher (also with TDSB), I have a profound passion for fighting to get all OTs the same benefits that contract teachers have access to, like training and professional development. I want all OTs to have access to networking opportunities and information about the intricacies of a system they struggle to navigate.

EXPERIENCE

Professional Dev Comm 2024-25

As an ETFO Local Executive member I intend to serve our members by:

- Developing the experience necessary (by serving on the local executive over the coming years) to serve and defend our members as a representative during allegation & investigation procedures, and in cases of breach against our members collectively bargained rights
- Developing the experience required (through years of dedicated service as an executive member) to serve our members' interests in the collective bargaining process
- Continue to be-friend, inform, and advocate for my fellow OTs
